- Gerry ask where does he believe the issues lie?
 - Malik feels like for one that enrollment issues have really become pressing especially int the last 3-4 academic years, focus on why this might be the case? What is different?
 - Malik also says from what he has seen there is clearly not enough resources to recruit students for retention, weather that is using the current students to do so or even the outreach, the timeline for when recruiting starts is also very interesting, as at Nausin the recruiting never stops.
 - Enrollment issues can also be related to the product we are providing.
 - Building strong relationships with the community and the surrounding schools in vital through outreach and networking
 - Branding definitely needs more resources.
 - What are the selling points of the school that can be advertised?
 - Are we targeting siblings?
 - Revise the org chart and everyone being used for their best skills.
